

Create Instructional Videos with **Snagit for Chrome** A Visual Tutorial

By Nick LaFave
Clover High School
www.EdTechPicks.org

Follow the directions below (using Google Chrome) after you have downloaded Snagit for Chrome.

I. Create a Presentation in Google Slides, or Upload a Presentation (PowerPoint or Keynote) to Google Drive

The screenshot shows a Google Chrome browser window. The address bar contains 'google.com' and the search bar contains 'explain everything tutorial'. A green checkmark icon with the number '1' is placed over the address bar. The main content area shows the Google logo with a jungle theme. A green checkmark icon with the number '2' is placed over the user profile area. A dropdown menu is open, showing various Google services: +Nick, Search, YouTube, Maps, Play, News, Gmail, Drive, and Calendar. A green checkmark icon with the number '3' is placed over the Drive icon.

Drive

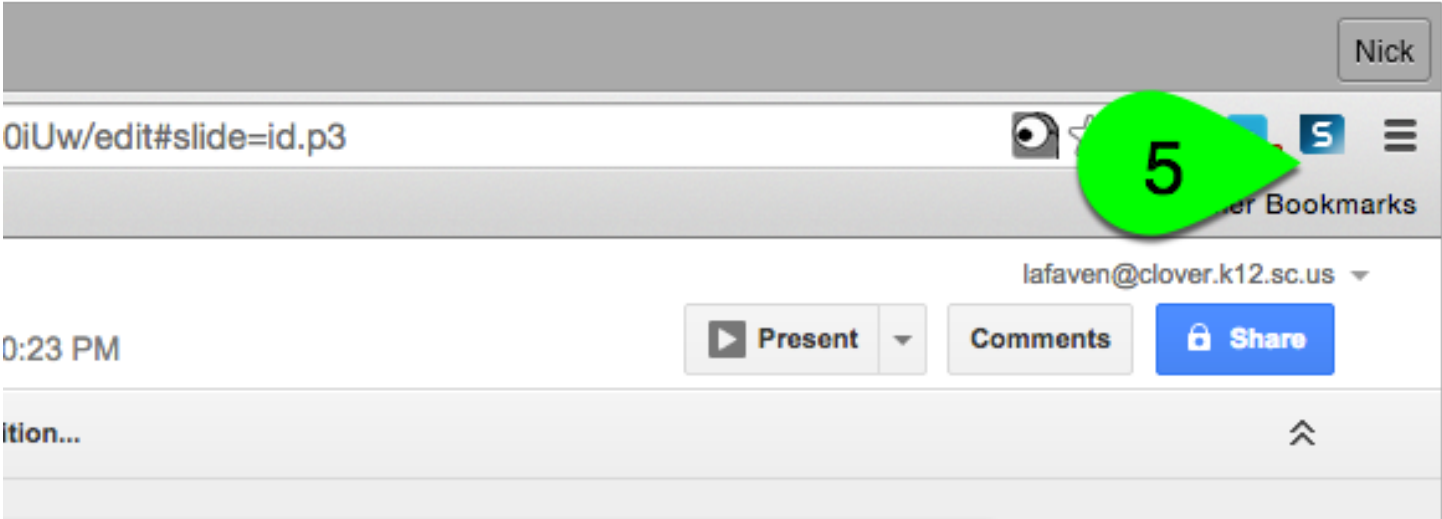

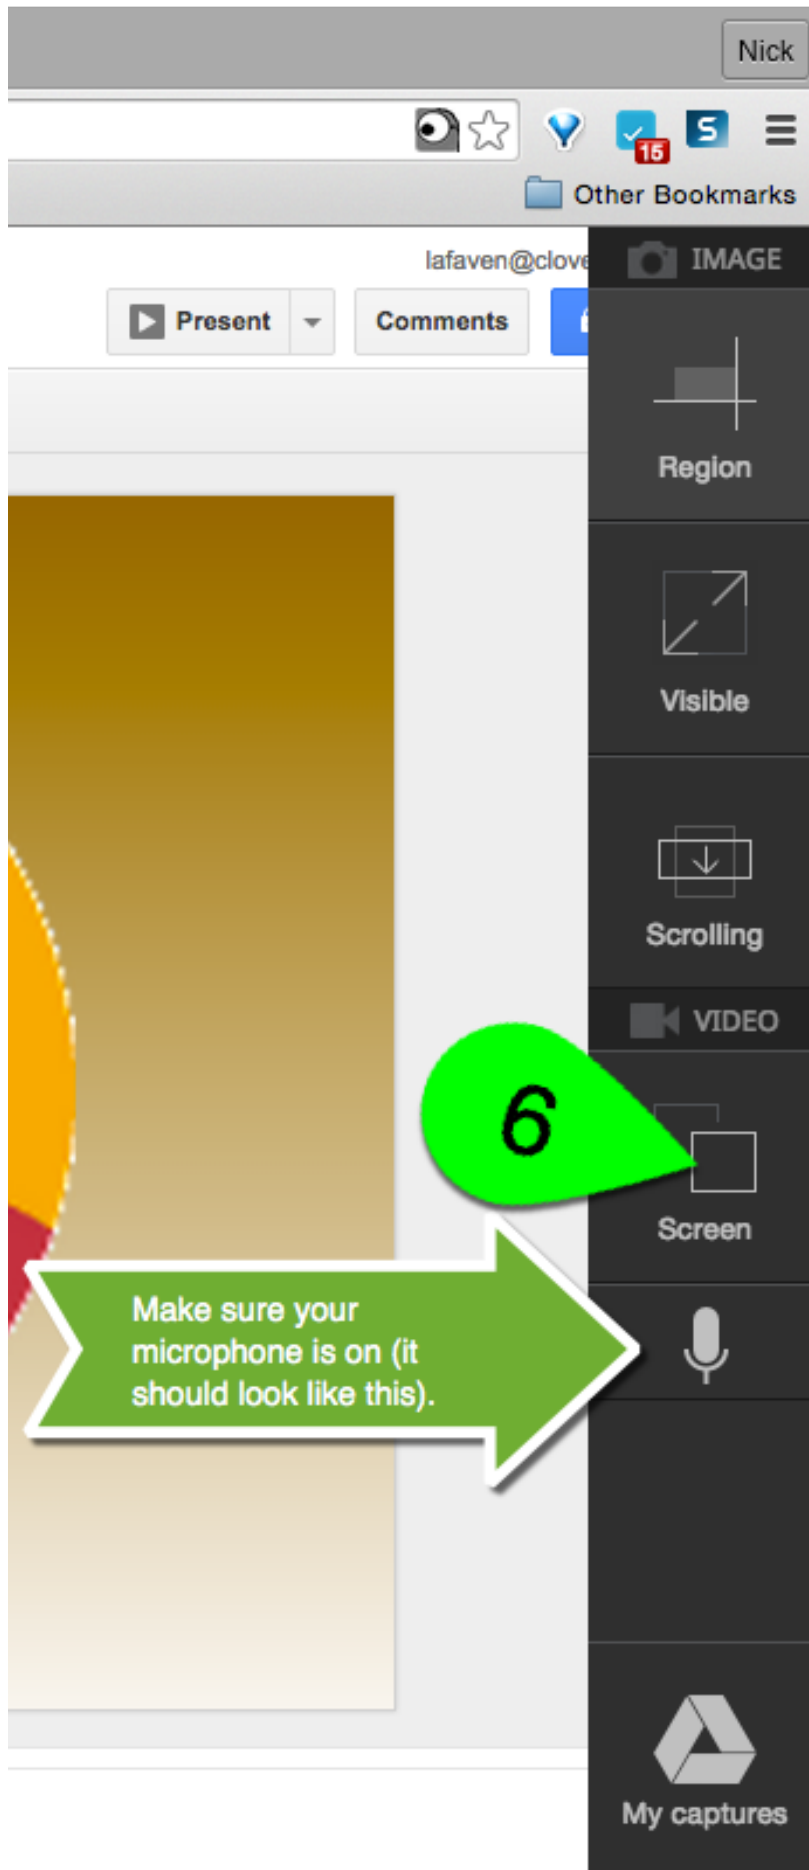

- My Drive
- Shared with Me
- Starred
- Recent**
- Trash
- More ▾

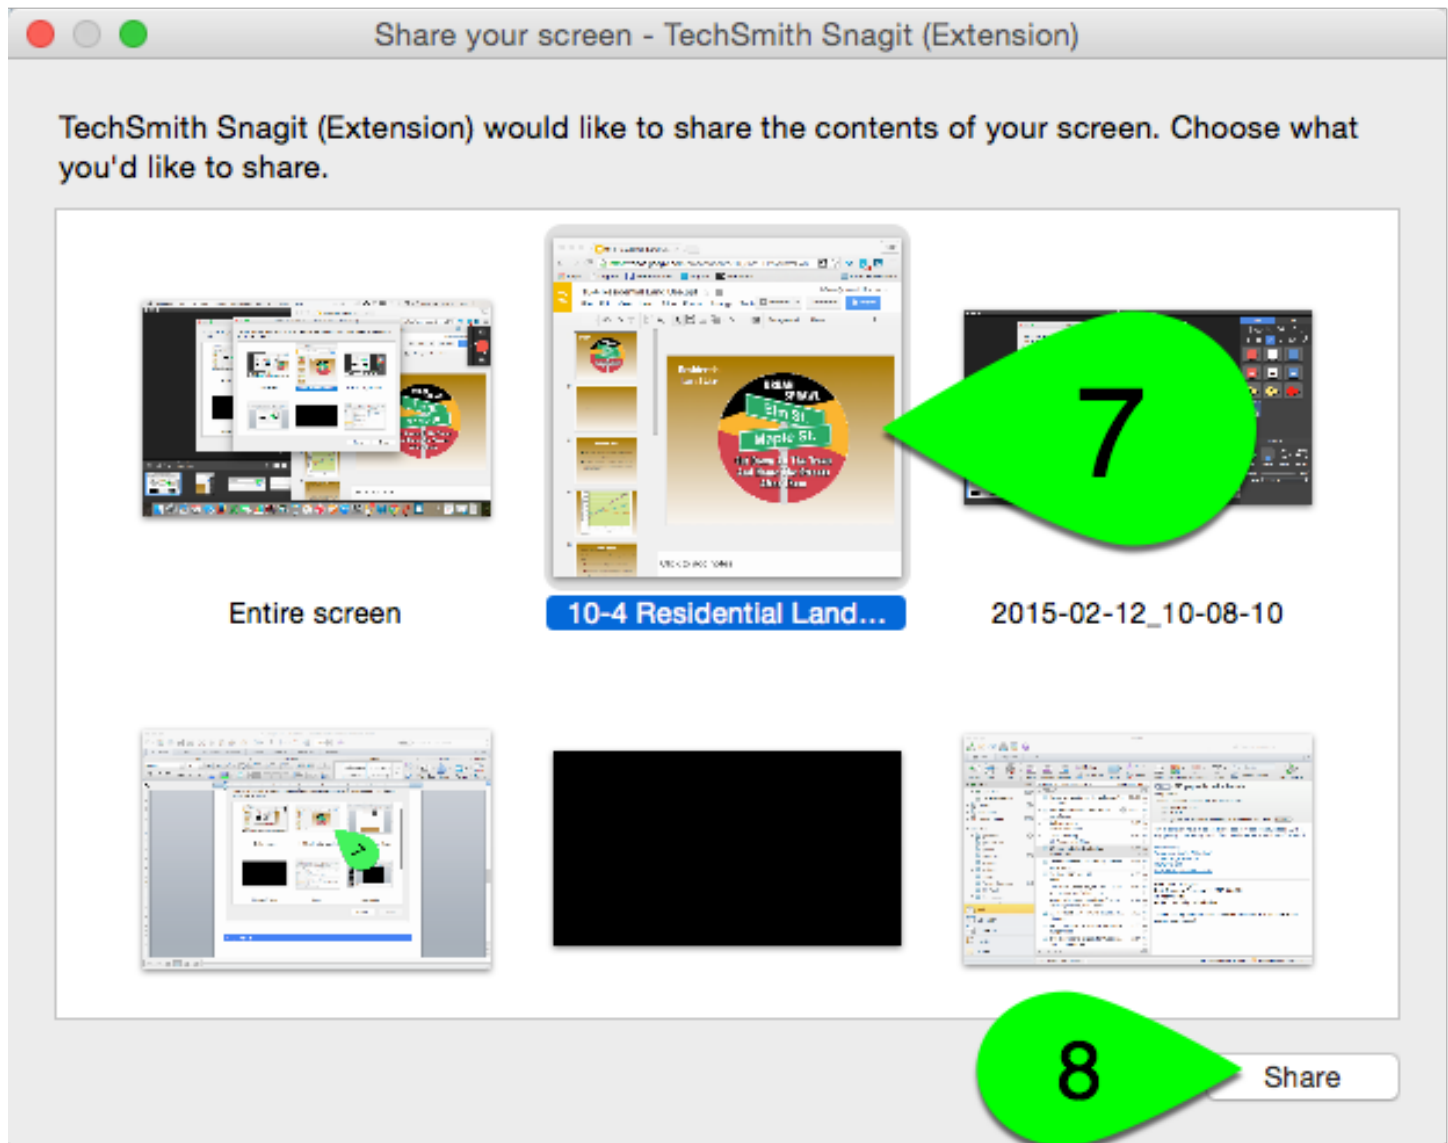

II. Open and Record Your Presentation

5. After you have opened your Google Slides Presentation and are ready to record, look for the Snagit button on the top right of your browser...

7. Select the screen you would like to record. I want to record my presentation, so I'm clicking on the second option. You can also record your whole screen or any other windows you may have open.

RECORDING BEGINS AFTER YOU PUSH SHARE.

Your screen and all audio is now being recorded. You can move about the screen, play your presentation to narrate it, switch pages, etc.

TechSmith Snagit (Extension) is sharing your screen. Stop sharing Hide

III. Preview & Save

10. Your video automatically saves to Google Drive in a folder called TechSmith. This screen allows you to:

- a. **Playback your video.**
- b. **Name your video.** (Only after it has uploaded to Google Drive. This may take a few minutes depending on the length of your video and the connection speed.)
- c. **Choose save/share options.**
- d. **Get the link to share or upload to YouTube.** Google Drive seems to work on more school networks. You can always get the link later from your Google Drive account.
- e. **Exit & finish your recording.**
